

Easydose

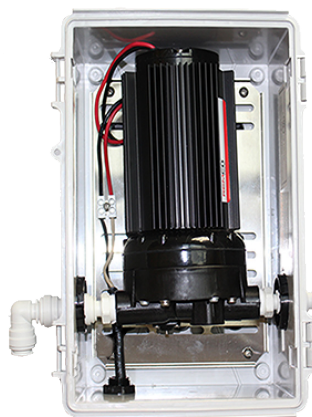

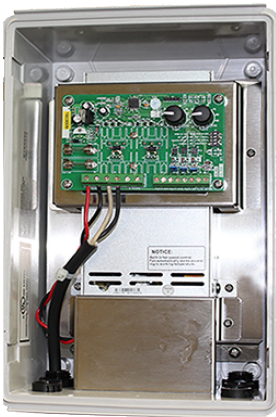

Controller

Pump

Analog Flow Meter

APPLICATIONS

- Fertilizer Injection
- Acid Injection
- Medicating Livestock

FEATURES

- Pre-wired for 12VDC or 115/230VAC (smart voltage hookup, no switching required)
- Electronic control system for pump speed control
- 1 or 2 pumps on each controller - each pump up to 1.7 GPM (open flow), 1.1 GPM at 60PSI
- Drop in chemical reservoir float switch for auto shut off when chemical is depleted
- Irrigation line injection quill
- Optional analog flow meter to measure chemical injection rate
- 4-20mA capability to control pump rate
- Outdoor rated rain resistant electrical enclosures with mounting hardware
- Modular concept for easy add-on pumps or pump replacement
- Includes an analog flow meter

SPECIFICATIONS

- Power: 115/230VAC 50/60Hz 3A
Auto voltage switching power supply (also available in 12VDC)
- Pump: 12VDC 14A
1.7GPM (open flow, water)
1.1GPM (@60psi, water)

CONTROL SETTING	APPROXIMATE FLOW RATE (GPM) WITH WATER THIN CHEMICAL							
	OPEN	10 PSI	20 PSI	30 PSI	40 PSI	50 PSI	60 PSI	70 PSI
