

APPLICATIONS

- Irrigation
- Livestock Watering
- Quick Access to Water

FEATURES

- Installs at ground level - easily hidden and remains undamaged
- Valve shuts automatically when key is removed
- Single-action snap-in key – opens valve for water flow into hose/sprinkler
- Time-saving and money-saving
- Highly durable and reliable

OVERVIEW

SINGLE ACTION CONNECTION

Configuring animal troughs or sprinklers for irrigation is more flexible, quick and easy. Just snap the key in place at the desired fixed valve position, and you're ready to go. No turning water mains on and off – it's all done instantly due to the special features of Plasson's Quick Coupling Valve System.

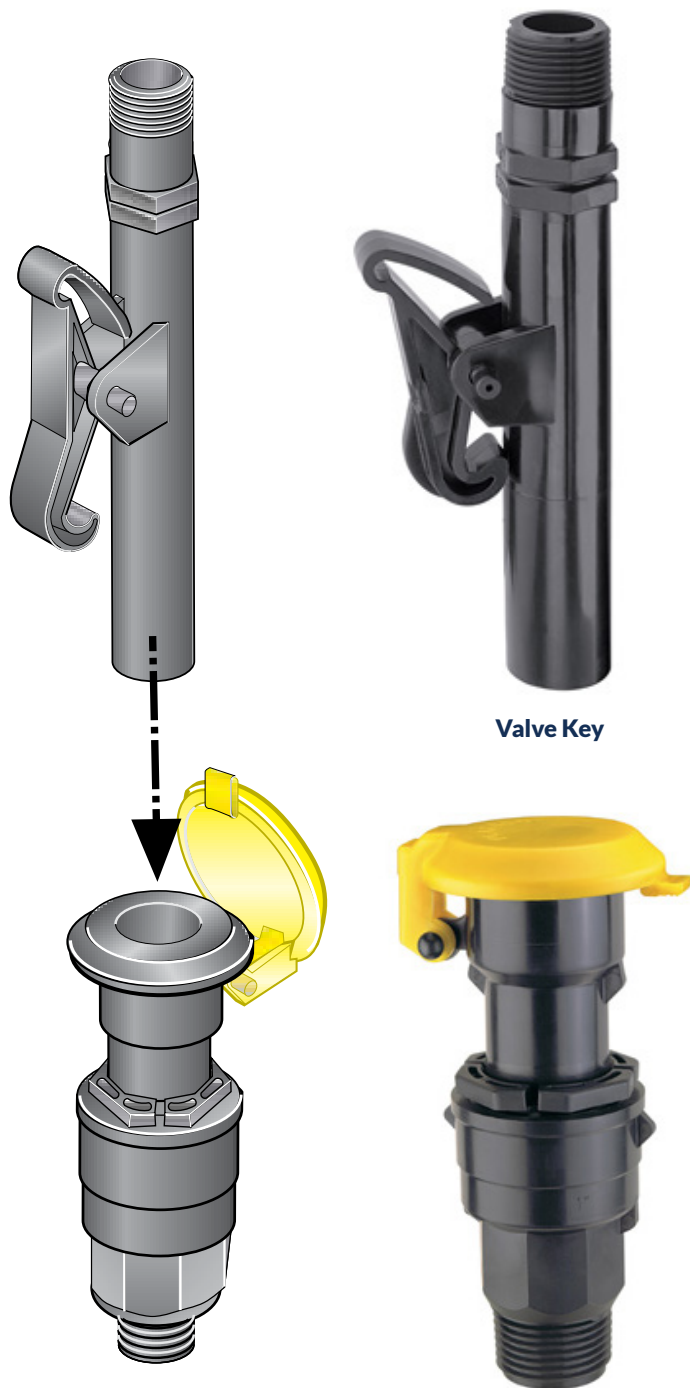

HIGHLY RELIABLE AND DURABLE

The Quick Coupling Valve materials withstand the most adverse conditions.

- Body: polypropylene and acetal
- Spring: stainless steel
- Seals: NBR

Custom made lengths available on request.

Booster Pumps

Increase your incoming pressure with a booster pump. Useful for washdown or overcoming the pressure loss of a very long hose.

Retractable Reels

Spring or motorized retractable reels. Also available for air or wire.

Hose Nozzles

These commercial grade hose nozzles are very durable and versatile.

Watering Wands

Get water in hard to reach areas. Typically used with a water breaker.

Fog Nozzles

High flow nozzle suited for fire protection or wash down. Adjustable spray pattern from a wide spray to a full bore flow.

Water Breakers

Create an ultra-soft shower which will not disturb delicate soil or harm tender plants.

Garden Hose Fittings

We carry a wide assortment of hose fittings to suit your watering setup.
