INSTALLATION PROJECTS

WHY SOUTHERN IRRIGATION?

PIVOT AND LATERAL OPTIONS

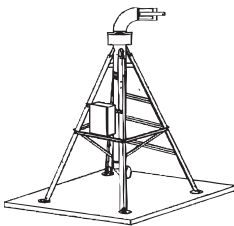

Zimmatic pivots and laterals are made with precision. Each component carefully designed to run trouble-free for years to come.

7500P Centre Pivot

BIG STRENGTH FOR SMALL FIELDS

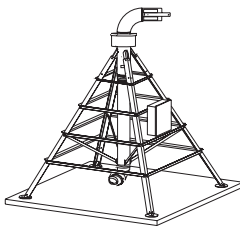

Designed for smaller fields, you can cost-effectively irrigate up to 60 acres. The 7500P has the quality and features of a bigger pivot in a more compact package.

8500P Centre Pivot

HIGH VALUE, HIGH PERFORMANCE

Engineered for value without cutting performance, with state-of-the-art design and high-strength 12-gauge pipeline.

9500P Centre Pivot

UNRIVALED PERFORMANCE AND LONGEVITY

The industry standard for efficiency and durability, featuring 11-gauge pipeline. Rugged, efficient, and adaptable to most any field conditions, it's the best way to get the most out of your fields.

Pivot Control Panels

Our full range of advanced Zimmatic controllers are ready with FieldNET, a remote irrigation management system, with advanced, easy-to-use interfaces to help you gain complete command of your pivot operation.

500C SERIES

A FieldNET ready control panel with an ultra simple interface.

For the grower who wants an easy to use panel with all the most commonly used features.

700C AND 712C SERIES

Industry leading control panels for the grower who is ready for complete control.

Includes all the features of the 500C panel, plus more advanced settings to get the most out of your field.

PIVOT AND LATERAL OPTIONS

9500L Standard Lateral

For growers with square or rectangular fields, a lateral system is the solution to maximize your production, delivering up to 98% coverage. It has the most advanced guidance available for lateral systems, utilizing both leading and lagging GPS antennas for focused precision in field tracking.

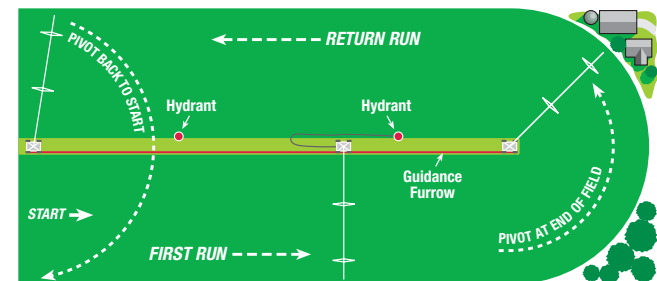

VISION FOR LATERAL CONTROL PANEL

Our full range of advanced Zimmatic controllers are all FieldNET-ready, with advanced, easy-to-use interfaces to help you gain complete command of your lateral operation.

9520PL Pivoting Lateral

NEW

Perfect for irregularly-shaped fields, the combination of a pivot and a lateral into one system gives growers the flexibility to make the most of their land without investing in extra equipment.

9500L Standard Lateral

FieldNET Advisor

INTEGRATED REMOTE IRRIGATION MANAGEMENT

FieldNET® by Lindsay puts you in total control. Gain fast, easy access to your entire system. As your fully integrated wireless management tool, FieldNET lets you view and control your systems from virtually anywhere.

- Create variable rate irrigation (VRI) plans
- Set auto-stops
- Create usage reports
- Stay informed

■ INSTALLATION PROJECTS

■ WHY SOUTHERN IRRIGATION?

Southern Irrigation brings 35 years of irrigation expertise. Our team is equipped with certified designers, the right tools and the manpower needed to provide complete solutions for any size irrigation job.

With Southern Irrigation, you can be assured that you will be given the best design, products and advice for your success.

CERTIFIED DESIGNERS

A well designed irrigation system ensures every plant gets what it needs.

PREMIUM BRANDS

We only use the best quality products.

LARGEST INVENTORY

We can complete a project faster than anyone else in Canada with little wait.

EXCELLENT PEOPLE

Utilize the knowledge, passion and experience of our team.
