

APPLICATIONS

- Corrosion-free polymeric self-cleaning screen filter with Amiad's unique suction-scanning cleaning technology
- Designed to handle low pressures
- Industrial use

FEATURES

- Easy installation and low maintenance
- Low water and energy consumption
- Compact design and lightweight
- Polymeric filter - corrosion free
- Reliable and durable

SPECIFICATIONS

The ADI-P Controller

Operates the automated processes that flush your Mini Sigma filters, allowing you to control and monitor them easily and conveniently.

Suitable for low pressure (1.5-10 bar)

Single or dual solenoid configuration

Provides detailed filtration performance data

Communication within Bluetooth® technology range

Offline information storage available
